Patent No. 591236
GENERAL INFORMATION:
APPLICANT: Sparling, P. Frederick
APPLICANT: Cornelissen, Cynthia N.
TITLE OF INVENTION: Transferrin-Binding Proteins From
TITLE OF INVENTION: Nelsseria Gonorrhea and Neisseria Meningitidis
NUMBER OF SEQUENCES: 8
                                                                                                                                                                                                                                                                                                                                                             565 GNNTYTDCTPRSINGKSYYAAVRDNVRLGRWADVGAGLRYDYRSTHSDDGSVSTGTHRTL

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
